

DURIAN

DESCRIPTION

Durian is a great tasting introduction to nutrition, harnessing the goodness of nature's most nutritious tropical fruits.

The durian fruit boasts one of the most impressive phytonutrient profiles found in nature. Durian is rich in nutrients such as dietary fibre, phytonutrients, polyphenols, and flavonoids. It is also rich in organo-sulfur compounds and features an impressive mineral profile including potassium, calcium, magnesium and zinc.

Our unique formula unites this powerful profile with the Queen of Fruits - the mangosteen. It's not just a great tasting juice though - the mangosteen contains special phytonutrients called xanthones plus flavonoids to provide additional antioxidant content and support cellular health.

The formula is rounded off by a great tasting blend of papaya, mango, guava, and lychee fruits, all working synergistically to provide additional nutrients.

FEATURES & BENEFITS

- Supports overall health with a broad and comprehensive nutritional profile.
- Provides all of the wholesome goodness of Durian, now in additional concentration.
- Balanced blend of tropical fruits ensures adequate energy and balance.
- Naturally high in amino-acids, essential fatty acids and unique organo-sulfur compounds.
- A valuable source of flavonoids featuring strong antioxidant properties.
- No artificial sweeteners or colourings.

DURIAN

KEY INGREDIENTS

- **Durian** — Traditionally known for its dietary fibre, phytonutrients, polyphenols, and flavonoids. The durian, known as the spiked treasure of Southeast Asia, has been revered for its unique properties for centuries.
- **Mangosteen** — A rich fruit that is known for phytonutrients called xanthones. The mangosteen fruit has been used for years in traditional medicine in Southeast Asia.
- **Papaya** — Laden with the beneficial digestive enzyme (papain), plus fibre, vitamins, minerals, and antioxidants
- **Mango** — Features high levels of phytonutrients plus carotenes, phenolic compounds and antioxidants.
- **Guava** — Guava is rich in polyphenols. This tropical fruit also shows remarkable antioxidant capacity.
- **Lychee** — Packed with vitamins & minerals including (vitamin C, riboflavin, copper and potassium), plus antioxidants and polysaccharides.
